MANITOU Warehouse Forklifts

Manitou MI 25 G DF (Dual Fuel)

- Maximum lift height: 21'3"
- Maximum lift capacity: 5,500 lbs.

Manitou has unveiled dual fuel as an option on the MI 25 G industrial forklift. This option allows customers to power their industrial forklift with LP gas or gasoline with a simple dashboard mounted switch. The dual fuel option allows customers more versatility by being able to choose what energy source is best for their indoor or outdoor applications. Easy to use and maintain, it helps you stay productive and keep your working rhythm up, being designed and built with efficiency and safety in mind.

Manitou MI 30 G LP (Propane)

- Maximum lift height: 21'3"
- Maximum lift capacity: 6,600 lbs.

The MI 30 G forklift is perfectly suited for a wide range of industrial applications, both indoors and outdoors, including loading and unloading trucks, transporting goods, supporting warehouse needs, supplying production lines, and handling logistics operations. The MI 30 G offers a maximum load capacity of 6600 lbs. Its driving performance, exceptional visibility, and highlifting speeds will allow you to optimize your productivity! Adjustable and accessible controls, and security systems are just the starting point.

Bierschbach is the first name in construction equipment for rent and sale in the Midwest. Our rental department offers a wide range of equipment including forklifts, boom lifts, air compressors, scissor lifts, and more. Our experts can help train your team on our well-maintained, late-model equipment. Rentals are available for pickup or delivery.
