MI 25 G Forklift

MI 25 G Forklift

- Max Lift Height: 15'9"
- Rated Capacity: 5,500 lbs.
- Engine: Nissan Dual Fuel Engine

The MI 25 G is easy to use and maintain. It helps you stay productive, being designed and built with efficiency and safety in mind.

The Manitou MI 25 G is a reliable 5,500 lbs. capacity industrial forklift. Powered by a Nissan LPG/gas engine and a Powershift transmission, it features a tight 7.5-foot turning radius, solid super-elastic tires, and lift heights reaching up to 15 ft. 9 in., making it ideal for warehouse and loading dock applications.

The driver's position is spacious, ergonomic and easily accessible from both sides, with a simplified dashboard. The adjustable steering column and ergonomic controls provide maximum comfort from start to finish.
